

# Digital Worksheet for Squid

In this unit we talked about how to learn well online. You should see two boxes on this page. In the top box you will be drawing things that help you learn better online. In the second box you will be drawing some things that are NOT helpful when you are trying to learn online. Some examples might be a television in the NOT box, or a desk light in the helpful box. You may add labels to your drawing if it didn't turn out very clear.

In this box, draw 3 things that are helpful in an online learning space.

In this box, draw 3 things that are NOT helpful in an online learning space.
